Time Billing

Time billing will apply in addition to fixed-fee charges for the following:

- each meeting (in addition to 1x initial appointment and 1x signing appointment); and
- further investigation, review or advice.
 - This may include searches, amending documents based on new information or update instructions, written advice (for example in relation to possible Inheritance Family Provision Claims).

Time billing is based on our hourly rate of \$440.00 per hour for solicitor work (incl. GST). Time is recorded in 6 minute blocks.

Should you require time based work in addition to the fixed fee components, we will advise you of such work and the estimated costs at your initial appointment,

Wills Classifications

We have categorised our Wills into three different categories based on the complexity.

- A simple Will, includes appointing trustees with a back up or joint trustees, providing simple gifts or giving the whole of your estate to one person with remainder clauses to children, grandchildren or other family members.
- An intermediate Will includes some variation to the above, such as uneven splits to gifts, life interests, blended family considerations and guardianship of children.
- Complex wills include a number of additional matters or more complicated clause inclusions.
